

Simply, Conferencing

Event Conferences with CentraCall

About Event Conferences

When planning your next event conference, the partner you choose becomes integral to the successful delivery of your message. CentraCall is powered by InterCall, the world's largest service provider specialising in conference communications: Audio, Web and Video. You will benefit from a dedicated team of experts who draw on years of experience managing the event conferences of today's leading FTSE enterprises.

When to Use Event Conferencing

Every conference is as unique as the audience attending it. We create a bespoke solution so that every detail is considered in advance.

Event conferences can be used to deliver:

- Investor Relations Communications
- Press Conferences
- Quarterly Earnings Announcements
- Internal Corporate Communications
- New Product Launches
- Public Relations
- Remote Training & Distance Learning
- Merger & Acquisition Announcements

Why Choose CentraCall?

When you partner with CentraCall, you entrust your message to experts with a proven track record in managing high-profile events across the teleconferencing spectrum. CentraCall will manage your virtual communications via Audio, Web and Video Conferencing. Contact us to find out what we can do for your events.
